SHELLS FALLING AT ADRIANOPOLE

ALLIES Resume Bombardment of Turkish Stronghold.

Turns Deaf Ear to Powers

Bulgaria is Unmoved by Remonstrances and Unless Turkey Yields to the Balkan Demands an Attempt Will Be Made to Drive Her Completely Out of Europe.

London, Feb. 4.—The Times says that a report is current among some of the Balkan representatives that the port of Adrianople has been laid down and that Bulgaria is ready to accept. This report has not been confirmed at the Bulgarian legation here, but it is not considered incredible.

London, Feb. 4.—The Balkan war has been resumed. The bombardment of Adrianople began and a small skirmish occurred at the Tchatalja lines. The armistice had lasted exactly two months.

Bulgaria has turned a deaf ear to the remonstrances of the powers and unless Turkey yields to the Balkan demands the allied armies will now attempt to drive her completely out of Europe.

According to a dispatch from Belgrade Scutari is already on the point of falling. It is reported that the Turkish commander has sent two representatives to the Serbian commander to propose the capitulation of that town.

Dr. Danell, head of the Bulgarian delegation, in an interview in Paris, said he had promised Sir Edward Grey, the British foreign secretary, that if the Turks immediately accepted the allies' conditions they would conclude peace, but whatever happened there would be no further armistice.

Sir Edward Grey had a long interview with the king, after which he attended a brief meeting of the ambassadorial conference, but nothing of importance was transacted, there being no development since Saturday.

INTERCEDE FOR FOREIGNERS

Consuls at Adrianople Ask Safe Conduct for Their People.

Constantinople, Feb. 4.—The consuls at Adrianople have requested the ambassadors here to arrange with the Bulgarian authorities for permission for 120 foreigners at Adrianople to pass through the Bulgarian lines. If this arrangement cannot be made the ambassadors will ask that Bulgarians respect that portion of Adrianople set apart for foreign residence.

MEXICAN REBELS STOP TRAIN

Kill or Wound Entire Guard of Twenty Soldiers.

Mexico City, Feb. 4.—Rebel followers of General Zapata attacked a passenger train traveling from Mexico City to Ouzumba, forty-five miles south of the capital city, killing or wounding twenty soldiers, the entire escort with the train.

Four male passengers were killed and many of the women passengers were carried off by the rebels.

A relief train took the wounded to Amancuac.

The train was halted by the derailing of the engine in a cut. The rebels then began firing from the sides of the cut at a distance of less than two yards, concentrating their fire on the troop car. Twelve soldiers, including Lieutenant Ortiz, were killed. The lieutenant's wife was wounded.

Some of the survivors who were brought here relate stories of terrible atrocities. Several of the wounded have died and the list of dead is estimated at twenty-five.

WOMAN DOCTOR IS ATTACKED

Discharged Janitor Tries to Cut Her Throat.

San Francisco, Feb. 4.—Dr. Madeline E. John, physician, was attacked in her office by Herman Gutchick, a discharged janitor, who attempted to cut her throat and then committed suicide by cutting his own throat.

Dr. John was taken to a private hospital, where it was said she might live.

Gutchick is supposed to have attributed his discharge to her. No other motive is known.

you need

Raise Money to Fight Russians. San Francisco, Feb. 4.—A fund of \$400,000 is being raised by the Chinese in the United States and Canada and within a few weeks it will be sent to Wu Hon Mun, governor of the province of Canton, China, to outfit the army that is to march from Peking to protect Chinese interests in Mongolia against the Russians. Already \$25,000 has been subscribed by local Chinese.

DUKE OF CONNAUGHT.

Intimates His Absence From Canada Will Be Temporary.

CONNAUGHT IS COMING BACK

Duke Tells Canadians He Hopes His Absence Will Be Brief.

Montreal, Feb. 4.—What is considered a contradiction of rumors that when he goes to England in the near future, where the Duchess of Connaught is to receive medical treatment, he will not return to Canada to finish his term as governor general, was made in a speech by the Duke of Connaught at a luncheon at the Canadian club.

"I hope my leave of absence may not keep me long in England, as I desire to be with you again in the summer," he said.

MILK TRUST EXISTS IN THE TWIN CITIES

First Conviction Under Minnesota Anti-Trust Laws.

Minneapolis, Feb. 4.—A Twin City milk trust was organized in Minneapolis Sept. 29, 1912.

In effect this was the verdict returned by a Minneapolis jury in the case of the Minneapolis Milk company and its president, A. R. Ruhnke, on the charge that "they conspired to limit, fix, control, maintain and regulate the price of milk and cream."

The verdict, the first conviction of a corporation under the anti-trust laws of the state, was reached just fifty minutes after the jury retired.

Under the law the court can impose a fine of not less than \$500 nor more than \$5,000, or send the milk dealer to prison for not less than three and not more than five years, or both.

Sentences will be made Thursday at 10 a. m. by Judge Jolley. Mr. Ruhnke was released on his bond of \$1,500.

The verdict will result in the trial of the other milk companies and dealers charged with being parties to the combine.

TO RESTORE DEATH PENALTY

Bill in Minnesota Senate Would Have Juries Decide.

St. Paul, Feb. 4.—Restoration of the death sentence for murder is proposed in a bill introduced in the senate by Dues, Pipestone county. The measure provides that juries which bring in verdicts in first degree murder cases shall direct whether the penalty shall be life imprisonment or death.

Senator Knute Nelson addressed the legislature in joint session in the house chamber. The senator spoke extemporaneously before the legislators and outsiders who thronged the floor of the house and the galleries.

Public questions, including the work of congress and in a general way the work of the legislature, were discussed by him.

Appropriation of \$150,000 for a Minnesota building at the Panama-Pacific exposition in San Francisco is proposed in a bill introduced in the senate by Denegre of Ramsey county.

ADMITS KILLING BEMIDJI MAN

Trouble With Saloon Keeper Is Only Motive Revealed.

Bemidji, Minn., Feb. 4.—Admitting that he shot and killed Big Sam Martin over some money difficulties August Johnson, thirty-four years old, a Danish lumberjack, is occupying a cell in the jail here, having been arrested at Wilton.

After killing Martin and his subsequent flight into the woods Johnson made his way into Wilton for the purpose of obtaining food. There he was recognized by several people who had heard of the murder and they gave him up to the police.

Beyond saying that he had some trouble with Martin, Johnson would disclose nothing as to his motive for the alleged killing of the saloon keeper.

WILSON IS BESET BY SMALL THINGS

As Governor He Has Time For Minor Details.

MAY HAVE TO LOSE SLEEP.

President Elect Will Have Press of Big Cares When He Enters Office, and Nine Hours of Slumber He Has Allotted to Himself May Be Cut Down—Courtesy Strained.

By ARTHUR W. DUNN.

Washington, Feb. 4.—[Special.]—Governor Wilson is much more interested in a lot of small things pertaining to the office of President of the United States than President Wilson will be when he enters upon the duty of his big office. Governor Wilson has time enough now, although he is no doubt a very busy man, to listen to a lot about what he ought to do when he becomes president. He has probably promised himself and some of his visitors to do several things which will not be so important when he once takes hold of national affairs.

There are going to be enough practical, important questions for Mr. Wilson to consider to keep him occupied more than the time he has allotted to himself, especially if he insists upon nine hours' sleep each night. And then many of the lesser things which have been brought to his attention will be swept aside.

Straining Senatorial Courtesy.

These are the days when a hard strain is put upon "senatorial courtesy." The new senators coming to town have about come to the conclusion that "there ain't no such thing." They have found that when it comes to committee places and rooms in the senate office building he who can grab first, hang on best and pay no attention as to what happens to the other fellow is the man who wins most. There is no "after you, my dear Alphonse," when it comes to hooking on to good committee assignments and to good offices.

Thomas Fixed.

Senator Thomas of Colorado found an old newspaper friend who had been twenty years about the senate, and Thomas was steered into the rooms which were formerly assigned to Vice President Sherman, but never occupied by that official. He took possession, but began to feel uneasy when some older senator began inquiring about the rooms.

"Can I keep them after the 4th of March?" anxiously asked Thomas.

"Sure," replied the newspaper man. "You just sit tight. Don't move. Don't give them up, and they can't get them away from you."

Clapp Makes a Guess.

Senator Clapp of Minnesota is not a man who takes his progressiveness too seriously. "Of course," he said, "if the Democrats go to work and get us into trouble, and if hard times come why, the country will go back to the Republican party, just as it did twenty years ago. We will have another reign of Republicanism, with stamptism in the saddle."

Senator Clapp is one of the men who has long since refused to be bound by the Republican caucus and was one of the staunch supporters of Colonel Roosevelt.

"Flora McFlimsey" in Washington.

Women of Washington are not exactly like the famous "Flora McFlimsey" of Madison square some forty years ago. They "have something to wear," but they have no place to wear it, since the inaugural ball was abandoned. Many a gown has been put away with regret, and many more remain upon the shelves of shopkeepers in Washington, who bought large stocks of goods in anticipation of demands for inaugural ball dresses.

And yet the wise woman, one who has been to an inaugural ball or a White House reception, saves her fine clothes for more select functions. These big affairs generally wreck the finest gowns.

Raising a River.

Congressman Dickson of Mississippi has introduced a bill providing for the government purchase of lands along the Mississippi river which become overflowed. In a whereas preceding the bill he says that the construction of levees on the Mississippi by the government has caused an elevation of the river so as to cause overflow and destruction of farm lands. Dickson also says that large quantities of willows needed for reversion purposes by the government could be grown on these lands.

The interesting feature of the bill is that it gives official sanction from a Mississippi congressman to the claim that the higher the government builds the levees the greater danger from overflows in flood years.

Two Men Feel Sure.

Within a few days I have met two men who are absolutely sure that they will be selected secretary of agriculture. Albert S. Burleigh is one of them, and I believe that Johnson will be chosen. It seems rather strange that the other two men have become so positive. In election times it is all right for men to "claim everything." It is a part of the game, but it is not often that men claim cabinet appointments.

Procrastination.

The things that are put off until tomorrow are usually finished twenty-four hours late. Detroit Free Press.

CORDELL HULL.

May Draft Measure Providing Income Tax.

Will by American Press Association.

PLANNING FOR INCOME TAX

Democrats May Have Bill Ready When Extra Session Opens.

Washington, Feb. 4.—Delaware, Wyoming and New Mexico endorsed the income tax amendment to the Constitution through their legislatures. This completed a list of thirty-eight states that have approved it, two more than the three-fourths necessary for its final adoption.

Leaders in congress predicted that through the authorization the law to be passed to levy the tax upon American incomes will be introduced as soon as the extra session opens. Its terms have not been decided upon, but it is believed it will exempt all incomes below \$4,000 or \$5,000 and will provide a tax of 1 per cent upon the majority of personal incomes that do not run to an excessive figure.

The drafting of the bill to put the tax into effect, it is expected, will fall to the lot of Representative Cordell Hull of Tennessee, a member of the house ways and means committee, who drew the excise tax bill proposed last year by the Democratic house, but which did not become law.

THREE MEN KILLED BY ELECTRIC CAR

Motorman Saw Them Too Late to Save Their Lives.

Buhl, Minn., Feb. 4.—Three men, Croatians, were killed while walking along the tracks of the new Mesaba electric line near Sharon, Minn. Two of the men were instantly killed, the other dying shortly afterward in a hospital.

The dead are: Javo Neschak, twenty-nine; Eli Knezelich, thirty; J. Oso Lomcar, twenty-three.

Because the car was working up a stiff grade the electric headlight missed the three trackwalkers until the car struck a level stretch, when the headlight showed them ahead, but too late for the motorman to save them.

OUTLAW HUNT FATAL TO TWO

Wounds Kill Constable and Woman Defender of Manitoba Man.

Winnipeg, Feb. 4.—Constable John Rooke and Annie Chizky, the paragon of the outlaw, John Barron of Riding Mountain, died at Dauphin, victims of gunshot wounds suffered in the charge of the police on the outlaw's shack a week ago, in which the woman's baby was killed. The woman maintained to the end that she alone was responsible for the shots fired from the shack.

SUFFRAGETTES FOR CIVIL WAR

Militant Women Preparing for Effective Strikes.

London, Feb. 4.—The suffragists are planning "an exciting civil war" in London, according to announcement by Mrs. Pankhurst.

"The militant suffragists," said Mrs. Pankhurst, "are preparing all sorts of effective strikes. The government must quickly give us the vote or go. The women will use every method constitutional as well as unconstitutional to turn the cabinet out."

POLICEMAN ADMITS GRAFT

Confession Lever for Uncovering Department's Corruption.

New York, Feb. 4.—The confession of a patrolman gave the district attorney the long sought instrument by which he expects to uncover corruption in the New York police department.

On the first day of his trial for bribery Patrolman Eugene F. Fox suddenly changed his plea and acknowledged his guilt.

FAVOR GUARANTY OF BANK FUNDS

FIVE OFFICERS ON TRIAL

Fate of Militiamen Now Rests With Courtmartial.

Minneapolis, Feb. 4.—The fate of the five St. Paul national guard officers charged with willful disobedience of orders from Colonel Eric D. Luce, Minneapolis, commanding the First regiment, now rests with the courtmartial. The St. Paul officers on trial were Major George K. Sheppard, commanding the St. Paul battalion, and Captains Anderson, Tiffany, Barnacle and Thompson.

The charge against the five officers is that they and their commands failed to appear, after being ordered to do so by Colonel Luce, at the Minneapolis armory Friday night when a military tournament and dance was being given, the proceeds from which were to pay for sending the Minneapolis battalion to Washington to participate in the Wilson inaugural parade.

DOES NOT AFFECT MERITS

Court Decision in United Shoe Machinery Company Case.

Boston, Feb. 4.—United States District Attorney Asa P. French, who has charge of the government's case against the United Shoe Machinery company, said that the adverse decision of the United States supreme court, which sustained Federal District Judge Putnam of Boston in throwing out two of the five counts in the two indictments against the company, did not affect the merits of the controversy. Mr. French said:

"The question which has just been decided by the supreme court was merely one of criminal pleading. The great and important issue between the people of the United States and the United Shoe Machinery company is whether or not the latter is a monopoly in violation of the Sherman act."

PICKS PRIVATE SECRETARY

But Wilson Asserts He Has Made No Cabinet Offers.

Trenton, N. J., Feb. 4.—When Governor Wilson announced the selection of Joseph Patrick Tumulty to continue as his secretary when he becomes president of the United States he declared he had arrived at no other decisions as to appointments.

When shown published stories stating that W. J. Bryan, A. Mitchell Palmer of Pennsylvania and R. L. Henry of Texas had been decided upon by him for cabinet portfolios, the governor said:

"It isn't true. I have made no offers as yet."

SLAYS GIRL AND HIMSELF

Mother Finds Daughter and Jealous Lover Dead.

Mahomet, Minn., Feb. 4.—Harry Loqua, a young farmer who lived three miles east of Mahomet, called on Miss Gladys Smith at her home here and deliberately shot her and then turned the revolver on himself.

When the girl's mother returned from a visit to a near neighbor she found them both dead. Jealousy is supposed to have been the cause.

Miss Smith was about seventeen years old and highly respected.

INK STAINS.

Soak ink stains in sour milk and should a stain still remain rinse in a weak solution of chloride of lime.

GRAIN AND PROVISION PRICES

Duluth Wheat and Flax. Duluth, Feb. 4.—Wheat—To arrive on track—No. 1 hard, 87½¢; No. 1 Northern, 86½¢; No. 2 Northern, 84½¢; May, 88½¢; July, 89½¢. Flax—On track and to arrive, 1.35½¢; May, 1.38¢; July, 1.39½¢.

Minneapolis, Feb. 4.—Wheat—May, 87½¢; July, 89½¢; Cash close on track—No. 1 hard, 87½¢; No. 1 Northern, 86½¢; No. 2 Northern, 84½¢; No. 3 yellow corn, 43½¢; No. 4 corn, 41¢; No. 3 white oats, 31¢; 31½¢; to arrive, 30½¢; No. 3 oats, 28¢; 30¢; barley, 46¢; flax, 1.37¢; to arrive, 1.37¢.

Democrats Will Present Bill to Next Congress.

IS CONSIDERING TWO PLANS

Glass Subcommittee, Which Has Been Charged With Drawing Up a Measure Amending the Banking and Currency Laws, Is Expected to Arrive at Some Conclusion Covering Guaranteeing Funds in National Institutions.

Washington, Feb. 4.—A plan providing for government or corporate guaranty of the safety of deposits in national banks will be embodied in the banking and currency reform bill that is to be presented to the house of representatives early in the administration of President Wilson.

Despite the protests of bankers and business men generally the deposit guaranty system, advocated by W. J. Bryan in 1908, has, for all practical purposes, been adopted by the Glass subcommittee, which has been charged with the duty of drawing up a bill in amendment of the banking and currency laws.

It may be stated upon authority that two concrete guaranty plans are under consideration by the subcommittee:

First—To require all national banks to pay a small amount each year for the creation of a fund in the treasury department as a guaranty of safety of deposits in such bank.

Second—To require banks in certain divisions to be responsible for the safety of deposits of one another, a fund to be created for the purpose by assessments levied against each bank.

Will Not Be Burdensome.

As to the first plan Democratic leaders say that it would not prove burdensome to the banks.

Representative Glass of Virginia, chairman of the subcommittee, has estimated that if a tax of .035 of 1 per cent had been levied upon deposits since the organization of the national banking system a sum more than enough to have afforded protection to all losers would have been collected.

The first plan is government guaranty, pure and simple, inasmuch as it is to be administered directly by the government through a bureau or division in the treasury department.

The second plan represents a compromise conceded to those who balk at government guaranty as advocated by Mr. Bryan.

It is assumed here that President

Elect Wilson is in sympathy with one plan or the other. Chairman Glass last week discussed the whole question of banking and currency legislation with the president elect and statements were sent out of Trenton at the time that Governor Wilson was in harmony with the views expressed by Mr. Glass.

CHEMICAL TARIFF TO STAND

House Committee Will Not Change It Materially.

Washington, Feb. 4.—The chemical schedule of the tariff law, producing 4 per cent of the total government revenue from customs, was considered in executive session by the Democrats of the house committee on ways and means. Many of the items taken up were raw materials used in the manufacture of medicines, paints, dyes and in tanning and dyeing processes, coal tar products and the like.

The schedule will not be materially altered from the Democratic bill which passed the house last session by a vote of 179 to 127, when the present Governor Hanna of North Dakota was the only Republican who voted with the Democrats for the measure.

The revenue of \$12,000,000 gained from the chemical schedule last year will not be substantially disturbed.

TRIES TO KILL SWEETHEART

Lover Wounds Her Brother and Then Commits Suicide.

Superior, Wis., Feb. 4.—As the result of a quarrel while returning from a dance at Trego, Wis., Vernon Delaney attempted to shoot Helen Saulen, his sweetheart. The shot went wild and entered the side of her brother Albert, who now is in a serious condition at a hospital. Delaney then shot himself, dying instantly.

The trio were returning to their home and when about 200 feet from the house Delaney pulled out his revolver and aimed at Helen. The sweethearts had quarreled and Helen had refused to go home with Delaney unless her brother went along.

Delaney was twenty-two years old and a student at the Superior normal. Saulen is about twenty-two years old and his sister eighteen.

TAFTS GUESTS OF WILSON

President and Wife Dine With Secretary of Agriculture.

Washington, Feb. 4.—President and Mrs. Taft were guests of honor at a dinner here by the Secretary of Agriculture and Miss Wilson. Mr. and Mrs. Andrew Carnegie were among those present.

During the agitation for a new depot and other changes in Brainerd, the Brainerd Musical club sent a committee report to Supt. A. V. Brown and the recommendations of the club included practically all the concessions which the railway company has now promised to make in the way of improvements at the local depot.

The funeral of W. R. J. Holden, or Dee Holden as he was familiarly called, drew a large number of people to the residence where the services were held. Rev. Elbert E. Satterlee officiating. The floral tributes were many. Lodges of the Odd Fellows, Redmen and Eagles, to which Mr. Holden had belonged, attended the funeral.

The Duluth Herald gives the following mention to Former Senator S. F. Alderman, who also spoke at the hearing of the tonnage tax bill at St. Paul. "The hearing concluded with an earnest appeal by Former Senator S. F. Alderman of Brainerd that the bill be reported by the committee for indefinite postponement. Senator Alderman showed the unfairness of the tonnage tax idea and the injustice it would work to the communities where the mines are located.

Passengers on the Minnesota & International train report that August Johnson, who shot and killed Sam Martin, the Bemidji saloonkeeper, was caught by the officers at Wilton, a small station on the Great Northern about seven miles west of Bemidji. Johnson, who is a Dane and about 34 years of age, had a quarrel with the saloonkeeper about some money he is alleged to have left on deposit with Martin. He is said to have returned later and shot Martin through the heart, the steel jacketed 38 bullet passing completely through the body of Martin and lodging in the cigar stand.

The Roman Method of Heating. Like many other Roman houses that have been unearthed in England, one recently brought to light was heated by a system called "hypocaust." The entire basement was one big furnace, from which fumes ascended, built into the walls. A wood fire was kept in the basement, the fuel being fed in from an outside annex through an arch in the wall.—Detroit Free Press.

Now's Time
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & Co., Toledo, O. We, the undersigned, have known F. J. HOW RUSSIAN GOT LIFE SENTENCE

Soldier Appeals to Czar and Is Imprisoned.

MERELY OFFERED PETITION.

Details of Brutal Oppression of Soldier Who Sought Leave to Aid Family Come to Light—Is Charged as Would Be Assassin and Convicted—Tales of Cruelty in Dungeon Are Told.

Cable dispatches recently reported the case of a Russian soldier who tried to hand a petition to the czar while he was reviewing the troops on the field of Khodinka, near Moscow. The soldier was arrested, tried and sentenced to imprisonment for this offense. The full details of the case have just become public now and are found in the indictment presented before the court which found the soldier guilty and sentenced him to the galleys for life.

The name of the soldier is Gregory Bakhurin. On Oct. 23, 1912, Bakhurin was tried in Smolensk. The trial was conducted behind closed doors, but a copy of the indictment found its way into some of the Russian newspapers, and the case attracted much attention.

Last summer while the emperor was reviewing the troops on the Khodinka field Bakhurin, who was a private in the Saphisky regiment, ran out of the line and tried to hand a petition to the emperor. Some of the officers made an attempt to stop Bakhurin, but he eluded them and rushed up to the emperor, holding the petition in his hand. The document was taken from him by one of the Cossacks.

Is Described as Assassin.

At the trial the minister of war, General Sukhraminov, the commander of the Warsaw district, General Seaton and Colonel Tkachenko of the Saphisky regiment gave their testimony. According to their statements Bakhurin left the line suddenly, holding his gun in his right hand and running directly toward the emperor. While thus running he drew from his pocket a paper and raised it in his left hand.

The minister of war on noticing this rushed over to the soldier and caught hold of the collar of his blouse. Bakhurin commenced to struggle. Bakhurin, according to the general's testimony, was greatly agitated, and he kept repeating:

"Let me go to the czar!"

Having torn himself away from the minister of war, Bakhurin ran off in the direction of the czar's suite. Then General Seaton galloped over to Bakhurin and, seizing him by the left hand, ordered him to hand over the petition, but Bakhurin insisted that he must give it himself to the czar, and he tore himself away from General Seaton's grasp.

In the meantime other officers rushed over to Bakhurin, and Colonel Tkachenko succeeded in taking the gun away from Bakhurin. The colonel testified that he had to make an effort in order to get the gun away. He explained, however, that the soldier in all probability clutched the weapon instinctively.

Bakhurin was kicked by the colonel's horse and fell to the ground. But he jumped up quickly and ran off again. Stopping in front of the emperor's horse, he knelt and stretched out the hand in which he held his petition.

Wanted to Aid Family.

A Cossack hurried over to the soldier and took the petition from his hand. In his petition Bakhurin begged the czar to free him from military service on account of misfortunes that had befallen his family and added that he was the only support of the family.

The officers and soldiers of his regiment testified that Bakhurin was known among them as a rather intelligent and religious man, but that he was always uncommunicative and taciturn.

The soldier himself testified that he knew he had no right to do what he did, but he thought the emperor would forgive him and would grant the request which he made in his petition.

Bakhurin was deprived of all rights and was sentenced to imprisonment for life at hard labor.

A letter smuggled past the authorities from the prison of Orsk, where this man is held, tells of a awful brutality. The writer declares that prison guards daily beat the inmates insensate with keys and that the latter are starved and held in chains.

LIVE BABY SENT BY THE PARCEL POST.

Vernon O. Lytle, mail carrier on rural route No. 5 out of Batavia, O., is the first man to accept and deliver under parcel post conditions a live baby. The baby, a boy weighing ten and three-quarter pounds, just within the eleven pound weight limit, is the child of Mr. and Mrs. Jesse Beagle of near Glen Este.

The "package" was well wrapped and ready for "mailing" when the carrier received it. Its measurements reached seventy-one inches, also just within the law, which makes seventy-two inches the limit. Mr. Lytle delivered the "parcel" safely to the address on the card attached—that of his grandmother, Mrs. Louis Beagle, who lives about a mile from his home. The postage was 15 cents, and the "parcel" was insured for \$50.

Mothers Can Safely Buy

Dr. King's New Discovery and give it to the little ones when ailing and suffering with colds, coughs, throat or lung troubles, tastes nice, harmless, once used, always used. Mrs. Bruce Crawford, Niagara, Mo., writes: "Dr. King's New Discovery changed our boy from a pale, weak, sick boy to the picture of health. Always helps. Buy it at H. P. Dunn's.—Adv. tts

WHALES ACT AS SHEEP DOGS

Leviathans of Sea Herd Herring and Fishermen Reap Big Hauls.

From Prince Rupert comes the report that two huge whales have been engaged to herd the shoals of herring into that port for the benefit of the fishermen, and the plan has met with such success that whales are to be used hereafter as the "sheep dogs" of the sea at the northern terminal.

The two whales display a lordly indifference to everything except herring, with the result that big catches are being made. Messrs. E. Mortimer, McDonald and Robinson are said to have first observed the efforts of the leviathans to corner the herring market in a rocky cove near Prince Rupert.

The whales drove the herring close to shore, and after opening their mouths to a wide angle they went through the shoal of fish at high speed, with the result that many of the herring were missing from the shoal. The gulls flying over the whales locate the leviathans, and the fishermen instead of making long trips for their catch are now following the gulls, with the result that big hauls are the rule.

Concise

The more a man thinks about himself—if he thinks clearly—the more humble he will become. Concise is a sign of confused perception and entire inability to see the true proportions of things.

"CASCARETS" FOR A SICK, SOUR STOMACH

Gently—but Thoroughly Cleanse and Regulate Your Stomach, Liver and Bowels While You Sleep

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets; they immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels. Then your stomach trouble is ended. A Cascaret tonight, will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing, too.—Adv.

Discharged

TWO SALOON LICENSES GRANTED

Council Allows a Large Number of
Bills—Plumbers License Grant-
ed Clark & Co.

President C. B. Rowley presided at the council meeting Monday evening. Aldermen Elder, Fogelstrom, Purdy, Dieckhaus, Henning, Olson, Anderson and Lagerquist were present. Alderman Webb was absent.

Among the bills allowed were the salaries of mayor and aldermen \$150; Judge J. H. Warner \$83.33; city officers \$241.00; freight on lamp posts ordered returned to Minneapolis Steel & Machinery company \$10.39; M. E. Ryan's expense bill attending supreme court on motion in re Schwartzkopf and Sheets vs city of Brainerd \$12.24; rent city hall \$50; payroll police department \$410; payroll fire department \$155; volunteer firemen \$32; Brainerd Tribune \$10.50; Hartel & Thelen \$4.65; J. W. Stearns \$2.50; White Bros. election booths, etc., \$41; Brainerd Dispatch \$4.96 and \$20.56; Brainerd Ice Co. \$13 and \$9; hydrant rental for fire protection for January \$175; arc light service January \$225.77; electric current ornamental lamp posts January \$64.87; Gregory square \$1.80; alleys and public buildings \$24.77; central hose house \$5.23; West Brainerd bridge \$9.93; water and light board material \$74.70; library bills E. M. Phelps \$17.50; Lilla M. Follett \$35; Louis Hohman \$29.90; Union library association \$7.25; H. W. Wilson Co. \$4; water and light board \$11.87; Shipp-Gruen-hagen Co., \$14.55.

Henry Hurley's bill for \$690.96 being pay as police captain from time he was dismissed March 1912, to date, was laid on the table. Mr. Hurley, it is said, claims he was not given a hearing when discharged and maintains the city owes him the amount stated.

The report of City Clerk Roderick covering the month of January was accepted and placed on file. The receipts were:

By taxes	\$2,000.00
Court fees	42.05
Rent city scales	8.34
Daily balances	100.55
Junk dealers license	25.00
Mortgage fees	1.00
Officers fees	50
Theatre license	40.00
Pool table license	5.00
By transfer	567.06

Total receipts \$2,789.50

The disbursements were:	
Revolving fund	\$ 487.43
Library fund	161.25
District sewer No. 4	383.63
Lateral sewer M	113.25
Guyett judgment	91.16
Current expense fund	1,946.11

Total disbursements \$3,182.83

The report of City Treasurer A. M. Opsahl for January was accepted and placed on file. It covered:

Bond interest fund	\$ 1,762.85
Current expense	1,440.65
Electric light and water	22,411.26
Firemen's relief fund	635.40
Library fund	493.61
Lateral L	41.36
Lateral M	258.06
Lateral N	8.95
Lateral A-3	142.84
Lateral A-2	2.91
Lateral A-1	60
Public building	2,652.21
Park fund	795.52
Revolving fund	17,390.98
Revolving bond interest	1,181.99
Sinking fund	712.77
Sewer district No. 4	219.91
Sewer district No. 5	15.35

Total \$50,167.22

Deposited as follows:	
Brainerd State bank	\$ 9,789.54
Citizens State bank	20,046.80
First National bank	20,330.88

Total \$50,167.22

Saloon licenses were granted R. J. Holden and George R. West. A plumbers license was granted D. M. Clark & Co.

The committee on care of the poor was given further time to report.

Every bottle is guaranteed to satisfy. Only 50c at H. P. Dunn's.—Adv't.

SECURES WRIT OF CERTIORARI

Attorney W. W. Barron of Brainerd, Asks District Court to Review Contempt Case

Little Falls Transcript of Feb. 3—A writ of certiorari was ordered issued Monday by Judge Taylor at St. Cloud in the W. W. Barron contempt case.

Mr. Barron, who is an attorney at Brainerd, was fined \$25 Jan. 23 by Judge of Probate E. F. Shaw for contempt. Mr. Barron appeared before Judge Taylor and asked for a writ of certiorari on the grounds that the proceedings in the case were arbitrary and that he had been unjustly fined.

The writ will be issued by Clerk of Court S. P. Brick and will order Judge Shaw to furnish the district court with a transcript of the case. Judge Taylor will go over the case and either affirm or reverse the judgment of the probate court.

PROF. J. S. YOUNG'S CLOSING ADDRESS

Spoke on "The Greater Community Fraternism" at the Commercial Club Monday Night

INTRODUCED BY PRES. ZAPFEE

"Public be Pleased Has Succeeded Vanderbilt's Phrase, 'The Public be Damned'"

Before an audience which included many ladies and which filled the large main room of the Commercial club Monday evening, Prof. J. S. Young delivered his closing address in Brainerd, choosing as his subject, "The Greater Community Fraternism."

The speaker of the evening was appropriately introduced by Carl Zapfee, the president of the Commercial club.

In the course of his speech Prof. Young showed how the conception of the American people in their relation to the big business of the country had changed from the Vanderbilt idea of "The public be damned" to the McAdoo idea which embodied the belief that the public should be pleased because we (that is the public service corporation presided over by Mr. McAdoo) are serving the people.

This is a fraternal age, said the speaker, but often time some of the most selfish men he knew were lodge members. He gave varied instances of the many cases of cooperation which commerce and industry had brought about, such as the international telegraph system, the international postal union, the international signal code, the metric system, the international copyright, an agricultural system of international proportions, the standardization of locomotives and their parts, standardized dress, standardized education brought about by the Rhodes scholarship, the international congress on hygiene and demography, prison reforms, the Y. M. C. A. world wide in its scope, and there had even been developed an international opinion which during the Russo-Japanese war sided with the Japanese and which in the present struggle in Turkey is with the allied forces in their fight, showing that cooperation and sympathy are world-wide in their scope.

The community insists on efficiency in national as well as local affairs. The voice of the consumer is being heard. He complimented the interstate commerce commission on its activities, but gave little praise to the Sherman anti-trust law.

The business of today was handled by men who considered that their business was not entirely their own and that they were here to serve the people.

Character was a valuable asset. In the testimony brought out by the Pujato committee hearing J. Pierpont Morgan said he would loan money to a man who had no collateral. He loaned it on the man's character. Honor, fidelity and loyalty existed in the business life of the country, a country in which 90 per cent of the business is done on credit. The whole idea of agency rested on faith.

If the laborer had shorter hours, how and where will he spend his leisure time? Will it be in the saloon. Shall recreation be municipalized or commercialized? Our changing ideas of life held different views regarding the moving picture shows, parks, school houses as social centers, children's playgrounds, skating rinks, street lighting just for favored sections of the city, billboards, gardens, coal smoke, old, decrepit buildings, telephone and telegraph poles.

The public will regulate the social evil, gambling and other vices will be exterminated. The idealist will in coming days be regarded as one of the really practical men of a community. The unit of society was the family and what tended to uplift it benefited the community at large. What some families needed was more father at home.

He was glad to see that a charter commission had been appointed to revise the Brainerd charter and that the commission form of government was being talked about in the city.

SUPT. W. C. COBB'S SCHOOL REPORT

Chicken Pox and Grippe Play Havoc with School Attendance in January

DR. HOAG TO LECTURE IN CITY

City Authorities Commended for Efforts to Check Tobacco and Liquor Evil Among Pupils

Owing to a run of chicken-pox in the primary rooms and the very general prevalence of grippe during the past month the attendance record in the schools has all along the line fallen below that for the preceding months. A number of the grade teachers have lost time during the present month on account of sickness.

During the month just closed the general midyear examinations have been held in all the schools and the general midyear promotions. The new semester starts out with more than fifty more pupils belonging to the schools than at the close of school for the holiday vacation. During the week just closed State Inspector Geo. B. Aiton, visited our schools, made a general survey of both high school and upper grades and gave a very wholesome talk before the pupils of the high school. Mr. Aiton appears very much pleased that Brainerd has made its beginning in the industrial subjects and spent considerable time in the sewing and cooking department. He expressed the hope that this beginning would be followed up with more courses along a similar line and especially advised planning for departments in manual training and agriculture.

A communication just received from the state board of health states that Dr. Hoag has been billed for Brainerd for medical and sanitary inspection of the schools on April 3rd and 4th. At the time of his visit Dr. Hoag will give a general lecture to the citizens of Brainerd on a subject pertaining to child health and child conservation at which time the whole problem of medical inspection, medical examination of school children and the problem of school physician and school nurse ought to receive general consideration and discussion by parents and citizens generally.

In connection with child-health the recent efforts on the part of the city authorities to check the tobacco and liquor evil among school children should receive the hearty support and cooperation of parents and all good citizens. Few people realize so thoroughly as do the teachers in the schools the fearful havoc that the tobacco habit and late hours of retiring are having upon the general health of school children and the serious consequences upon their school work. Over the state at large during the past year a general crusade has been spreading working for the suppression of the harmful tendencies of the present day that threaten child-health and proper child development. By united effort and sympathetic cooperation on the part of parents, citizens, churches, city authorities and the teachers in the school very much can be done to correct some unfortunate conditions.

On Monday afternoon Prof. Young of the state university gave a very helpful talk before the pupils of the high school and one that was much appreciated by the student body. Owing to the severely cold weather on Friday night the attendance at the Latin play was not so large as it would otherwise have been but it was given in a manner creditable to the Latin students and their teachers before an appreciative audience. The high school orchestra acquitted themselves well the handicapped by the absence of some of their members. The general teacher's meeting for the month will be held in the Whittier school building Tuesday afternoon at 4:15 P. M. to which any person interested in the schools will be welcomed.

The superintendent's report (consolidated) of all schools is:

Enrolled to date—boys 876, girls 977—total	1853
New enrollments for month, boys 19, girls 30, total	49
No. pupils belonging at date, girls 889, boys 810, total	1699

ENTHUSIASTIC MASS MEETING

Held Monday Afternoon to Edition Legislature to Submit a Woman's Suffrage Amendment

Although the mass meeting held in Elk's hall yesterday afternoon was not extensively advertised, the gathering was quite large. The purpose of the meeting was to protest the recent action of the senate in the non-passage of the bill allowing the voters of Minnesota to express themselves on the matter of woman suffrage.

Mrs. H. I. Cohen, president of the Brainerd Musical club called the meeting to order, and Mrs. C. M. Patek explained the purpose of the meeting.

Several speakers were asked to express themselves. D. A. Haggard one of the local lawyers gave a very convincing speech, re-emphasizing what it is well for us to bear in mind, that the citizens are the jury in this matter and ought to decide whether they are ready for such a measure or not.

Rev. E. E. Satterlee emphasized the fact of the recall, stating it was time that we exercised our influence along this line towards those men who are elected by the people but refuse to allow their constituents to express themselves, such men should be recalled because in the final analysis they do not REPRESENT their constituents, but interests that are foreign to them.

Miss Susan McCoy, teacher in English in the high school, gave a well written paper, sane, and full of convincing points. Miss McCoy echoed the fact that the woman wanted to protect their homes, she showed how the economic and social conditions had changed and with them the position of women in the sphere of government, had become an important factor. The home which is the safeguard of our nation should be garrisoned and jealously protected and this was one of the intentions of the thinking women of the country in their passion to get the right to vote.

Rev. G. P. Sheridan of the First Congregational church followed stating that as sure as the rising and as setting of the sun, so sure is it that woman suffrage would come. It will be the natural outcome of civilization. The very fact that women are entering into every department of thought, studying, art, literature, music, athletics, science, economic and social problems, this with the accepted proposition that woman today is equal with man, but different from man, all are healthy signs of the coming of the suffrage movement. While in my present stage of thinking (continued Mr. Sheridan, I am not fully persuaded on the measure, if the vote given to the women will improve our social and economic conditions then let the women vote. His last word was the advice to be sane in the methods to get it.

Mr. Angel and Mrs. G. Forsythe also gave expression. The meeting

See our Windows for
A Big Silk Bargain
Note it carefully

We placed some beautiful foulard silks in our windows this morning. They are just such as you will want for your summer dress and we placed them there at a big bargain price.

Take a look at them; see the splendid values we give and we believe you will want a pattern.

We might tell you here what they will cost you but we want you first to see the silks—you will appreciate them more.

"In what way?"
"It pays no attention to the fact that there is always room at the top."

THE THIRD DEGREE

Jailer—How did you enjoy your experience on the rack?
Accused—I went through it all right, but it's not my natural bent.

ON HER GUARD

Professor—You see, the science of chemistry depends on the discovery of certain affinities.
Miss Sweet—Pardon me. I trust the conversation can proceed without drifting into scandal.

HER DELIGHT.

Preacher—In the next world there will be no classes. All will be on the same level.
Society Leader—How distressing. Nobody to look down upon.

THE BUREAU OF SOCIAL HYGIENE

John D. Rockefeller, Jr.,
Writes of Its Purposes.

EXPERTS PREPARING REPORT

Millionaire Announces George J. Kneeland, Special Vice Investigator, and Abraham Flexner, Medical Examiner, Will Soon Disclose Facts on Vice and Possible Solution of Evil.

After two years of earnest, intelligent effort the bureau of social hygiene in New York city will soon have some startling reports and a probable solution to offer on the white slave traffic.

John D. Rockefeller, Jr., foreman of the special grand jury appointed to investigate the hideous traffic two years ago, is a member of the permanent bureau which was formed at that time. He has been a big factor personally and financially in advancing the work of the bureau.

Mr. Rockefeller has issued the following interesting statement as to the origin, work and plans of the organization:

The bureau of social hygiene came into existence about two years ago as a result of the work of the special grand jury appointed to investigate the white slave traffic in New York city, which served during the first half of the year 1910. One of the recommendations made by it in the presentment handed up at the termination of its labors was that a public commission be appointed to study the social evil. The foreman of that body subsequently gave careful consideration to the character of the work which it would operate. In this connection separate personal conferences were held with over a hundred leading men and women in the city, among whom were lawyers, physicians, business men, bank presidents, presidents of commercial organizations, clergymen, settlement workers, social workers, labor leaders and reformers.

Favor Permanent Body.
These conferences developed the feeling that a public commission would labor under a number of disadvantages, such as the fact that it would be short lived; that its work would be done publicly; that at best it could hardly do more than present recommendations. The conviction also grew that the main reason why more permanent results had not been obtained by the various organizations which had dealt with the subject of the social evil during the past ten or fifteen years was that most of them were temporary. While active, they materially improved the situation, but as their efforts were relaxed there came the inevitable return to much the same conditions as before. The forces of evil are never greatly alarmed at the organization of investigating or reform bodies, for they know that they are generally composed of busy people who cannot turn aside from their own affairs for any length of time to carry on reforms and that sooner or later their efforts will cease, and the patient denizens of the underworld and their exploiters can then reappear and continue the traffic as formerly.

So the conviction grew that in order to make a real and lasting improvement in conditions a permanent organization should be created the continuance of which would not be dependent upon a temporary wave of reform nor upon the life of any man or group of men, but which would go on, generation after generation, continuously making warfare against the forces of evil. It also appeared that a private organization would have, among other advantages, a certain freedom from publicity and from political bias which a publicly appointed commission could not so easily avoid.

Found Bureau in 1911.
Therefore as the initial step in the winter of 1911 the bureau of social hygiene was formed. Its present members are Miss Katharine Bement Davis, superintendent of the New York state reformatory for women at Bedford Hills, New York; Paul M. Warburg of the firm of Kuhn, Loeb & Co.; Starr J. Murphy of the New York bar and John D. Rockefeller, Jr. As the work develops new members may be added.

One of the first things undertaken by the bureau was the establishment at Bedford Hills, adjacent to the reformatory, of a laboratory of social hygiene under Miss Davis' direction. In this laboratory it is proposed to study from the physical, mental, social and moral side each person committed to the reformatory. This study will be carried on by experts, and each case will be kept under observation for from three weeks to three months, as may be required. When the diagnosis is completed it is hoped that the laboratory will be in position to recommend the treatment most likely to reform the individual or, if reformation is impossible, to recommend permanent custodial care. Furthermore, reaching out beyond the individuals involved, it is believed that thus important contributions may be made to a fuller knowledge of the conditions ultimately responsible for vice. If this experiment is successful the principle may prove applicable to all classes of criminals and the conditions precedent to crime and lead to lines of action not only more scientific and humane, but also less wasteful than those at present followed.

Study Evils Abroad.
In entering upon its labors the bureau regarded it of fundamental importance to make a careful study of the social evil in this country and in Europe, feeling that this problem, like any other great and difficult one, can be intelligently approached only by means of a thorough and complete knowledge of all the factors involved.

BURIED VILLAGE UNCOVERED.

Gale Sweeps Sand From Eccles, Entombed in 1605.

In the year 1605 the sea rolled up to the village of Eccles, on the Norfolk coast, engulfed it and drowned every inhabitant, covering the whole with tons and tons of sand.

Only a tower of the parish church remained above to mark the place where a whole community had lived for centuries. In 1869 the tower collapsed.

After a recent terrific gale the covering sand was found to have been swept right away from the Eccles beach, leaving the church and village exposed.

Baby Smokes Black Cigars.
Passengers at St. Louis Union station employees in the waiting room on the second floor of the building were startled recently by the sight of a three-year-old boy calmly lighting and smoking a long, black cigar with evident enjoyment. A train caller questioned the boy's mother, Mrs. Harriet Callahan of New Orleans. She told how her son had used tobacco since he was two years old on the advice of a physician. She said he had been afflicted with stomach trouble and that smoking had partly cured him.

Classic New York.
There is probably no better illustration of the irrelevance of certain place names than that afforded by the classic names of many towns, villages and cities in the state of New York. By way of illustration the following names from the single county of Cayuga may be mentioned: Auburn, Aurelius, Brutus, Cato, Conquest, Genoa, Ments, Scipio, Sempronius and Venice. In Onondaga county are Apulia, Camillus, Cicero, Delphi, Euclid, Fabius, Mantus, Marcellus, Memphis, Mycenae, Pompey and the large city of Syracuse. In Seneca county are names like Junius, Orvid and Romulus. Other large cities in other parts of the state are named Rome, Utica and Troy.—Report of American Scenic and Historic Preservation Society.

Some Apple Terms.
In describing the fruit the word "base" means the part of the apple at the stem end; "apex," the portion at the blossom end; "cavity" is the depression around the flower end; "calyx" the so-called flower in the apex of the apple. The general form is referred to as being "round," "oblate," "conical" and "oblong." As regards size, apples are said to be "small" when two and one-half inches in diameter or under; from two and one-half to three and one-half inches they are termed "medium" and above this "large."—Rural Californian.

Two Letters.
Nelly—What kind of a letter did your husband write when he was away?
Wife—He started "My Precious Treasure" and ended by sending "love."
"How did you answer?"
"I started with 'My Precious Treasure' and ended with 'Send me \$5.'"
—London 'Tit-Bits.

Solved.
"Twelve persons for dinner! Aren't you crazy to invite so many?"
"We might invite a thirteenth. That would perhaps take away their appetite."—Paris Souire.

Dainty Fare.
Customer—Four pounds of black pudding, please. Pork Butcher—Yes, sir, in a minute. Customer—Serve me at once. It's for an invalid.—Paris Liberte.

PAPE'S! BREAKS A COLD AT ONCE

First Dose of Pape's Cold Compound

Ends Grippe Misery—Tastes Nice—No Quinine
You can surely end grippe and break up the most severe cold either in head, chest, back, stomach or limbs, by taking a dose of Pape's Cold Compound every two hours until three consecutive doses are taken. It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, mucous catarrhal discharges, running of the nose, soreness, stiffness and rheumatic twinges.

Take this wonderful Compound as directed, without interference with your usual duties and with the knowledge that there is nothing else in the world, which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's cold compound, which any druggist can supply—accept no substitute—contains no quinine—belongs in every home. Tastes nice.—Adv't.

Already Had It.
A southwestern sheriff, visiting New York to take a prisoner back to his district, was turned over to an inspector, who was to be his amusement guide. They wound up at an east side hotel, where there were a few dips present.

After a half hour the inspector called one of the crooks to one side and said: "See that tall man with the sombrero?"
"Yes. What about him?"
"He's a Texas bull. I'm showing around, and I think it would be a fancy idea if you could nick him for his ticker."

"Nix, you're trying to put me in bad."
"Nothing like it—purely a joke, that's all. To show you I'm on the level I give you my word that you won't get in trouble, and I'll give you a five dollar note for his watch."

"All right. Here it is."—Chicago Post.

Time For It.
"I've got the dot on you."
"Then I guess it's time for me to make a dash."—Baltimore American.

UNIVERSE GROWS AT LICK OBSERVATORY.

That the universe is half again as large as the world has been supposed, that the sun is still youthful and keeps traveling northward twenty miles a second, that the north star is not a single star, but consists of three suns revolving about a common center, are some of the latest scientific discoveries announced by W. H. Campbell, director of Lick Observatory of the University of California.

What is considered one of the greatest contributions to cosmology Lick Observatory has made is Campbell's proof by spectrographic observations that stars in the earlier stages of their existence are traveling slowly through space and their speed increases with their development. This had not been suspected.

Don't Guide a Man.
"We were late," groaned the girl, who was tired, "because we went fifteen blocks out of our way."
"Why did you do that?" asked an unsympathetic brother. "Why didn't you keep your eyes open and take the right car?"

"I did," said the girl. "I knew which way to go, but my escort got confused, and I didn't dare to put him on the right track. If I had he would never have forgiven me. I have lost the friendship of three interesting men by that very evidence of strong-mindedness. Experience has taught me that, next to being caught in a fib, the thing that most ruins a man is to be guided by a woman. To wander around like a babe in the woods, to retrace his steps half a dozen times and finally to arrive somewhere an hour late are blunders that he can cover up with one excuse or another, but for a woman to take the lead and say, 'We want this car' or 'We must go this way,' presupposes a state of lamentable ignorance on his part and makes him hate that woman forevermore."—New York Times.

GREEK HEROES IN TURKISH RANKS

Christians Were Forced Into Moslem Service.

THEY THWART OPPRESSORS

Victims Burn Bridges and Work Other Hindrances to Advance of Islamites—Latter Put Them on Firing Line in All Battles—Officers Shoot Men Under Them.

Greeks who formed a large part of the Turkish army proved themselves to be martyrs to the cause of the Balkan allies by their brave acts, which resulted in their own death, according to Barnago Alamian, an Armenian who served in the Turkish army as a private and who just arrived in Chicago after deserting because of his lack of sympathy with the Moslems. Alamian, who was found at the Armenian club in Chicago, told a first hand story of the Balkan war to a reporter, with the assistance of an interpreter.

"I was a private in the Ninety-ninth battalion, Fifth brigade, which was attached to the Fourth Turkish army corps, consisting of first reservists," began Alamian. "We were along the Tchatalja line, which was four miles long and received the brunt of every engagement."

Christian Soldiers in Front.
"Battalions composed of all Turks never were put on the first line. There were three Macedonians, one Armenian and two of their Greek kindred who had been forced to enlist to every fifty Turks, and on the firing line the only Turks were officers commanding the others. In many instances I saw Macedonians burn down bridges in order that the Turks might be unable to transport their artillery to points of advantage, thus suffering severe losses. Many of them were shot down by their officers before the Bulgarian fire reached them."

"The Bulgarian troops were far superior to the Turks. Their cannonading was so fierce that the Turkish earthen breastworks along the line were silenced most of the time. The Bulgarian infantry also was full of courage and vigor. At one time the Bulgarians tried to flank the Turkish left wing, and just as they got about halfway around the Moslem battalions in the harbor near by shelled them. The Bulgars were forced to retreat, but it was done in good order and without any panic whatever."

Lieutenant Proves Self Hero.
"A lieutenant in our battalion proved to be a hero," continued Alamian, "when, during one of the engagements, we were cut off from the main body. The Bulgars flanked us in on all sides, and our loss of officers was great. A son of Makhtal Pasha, former prime minister, was in command, and we were getting the worst of the fight."

when he was shot down, badly wounded. The lieutenant stepped to the front and called to us to stand by the colors. The position was a hot one. Bullets were raining in on us, and the constant buzz and swish of the leaden missiles of death kept coming closer to my head every minute. Comrades on both sides of me toppled over dead or wounded, and the situation was trying to the best of us.

"The lieutenant raised his sword above his head, issued an order, and, after picking up our wounded commander, he led us through the skirmish lines of the enemy and back to our main army. The lieutenant, I may add, now commands a battalion."

"The treatment accorded the men in the Turkish ranks is the worst I ever saw. We received little food, and sanitary conditions were unbearable. At San Stefano there were 3,000 wounded lying in a valley without any attention whatever. Miles and miles of trenches about ten feet wide were dug, and thousands of bodies were thrown into them, one on top of another, and covered without first determining whether or not the victims were dead."

The Pole Star.
Any clear night look at the dipper or Great Bear and in a direct line from the two first stars in the quadrilateral of this constellation measure with the eye about five times the distance between them in a straight line and you will locate a luminary a little brighter than its neighbors. This is the pole star. Astronomically speaking, there are no fixed stars. So called fixed stars are supposed to be the suns of other systems of worlds, themselves performing immense revolutions through the fields of space. However, of all the bodies which scintillate in the starry night the only one that remains motionless or seems motionless is the pole star. At any moment of the year, day or night, its position remains unchanged. All other stars, on the contrary, turn in twenty-four hours around it, taken as the center of the mighty vortex. For this reason it is the most important star to navigators in determining their course.—Christian Herald.

Balfour and His Friend.
A. J. Balfour is an abstracted, scholarly man, who has a hard time remembering men. Once Balfour was benten for parliament by a Westminster constituency, but was immediately elected from a London constituency. Shortly after his defeat Balfour was walking with a friend in the lobby of the house of commons. A man came up to him and said:

"How do you do, Mr. Balfour? I am glad to see you, sir. I trust you are in good health."

"Excellent," replied Balfour warmly; "and I am charmed to see you looking so well. It is a real pleasure to meet you again, as it always has been."

The two walked on.

"Who was that man?" asked Balfour. "His face seems familiar, but I cannot remember him."

"That," replied his friend, "is the man who beat you for the house of commons in Westminster."—Saturday Evening Post.

Cause and Effect.
"What makes your baby so headstrong?" "He was raised on goat's milk."—St. Louis Post-Dispatch.

ROYAL BAKING POWDER

Absolutely Pure

The only Baking Powder made from Royal Grape Cream of Tartar

NO ALUM, NO LIME PHOSPHATE

as well as all the methods and experiences of other cities and countries in dealing with it. Arrangements were made, therefore, in the early part of last winter to secure the services of George J. Kneeland, who had directed the Chicago vice commission investigation. Since that time Mr. Kneeland, with a corps of assistants, has been making a thorough and comprehensive survey of the conditions of vice in New York city. This survey has covered not only houses of prostitution, Raffles law hotels, disorderly saloons, cafes and restaurants, massage parlors and other places where vicious people congregate, but also the personal histories of some 2,000 prostitutes, and a study of all the case records for one year of a great majority of the hospitals and dispensaries in New York city, with a view to ascertaining the prevalence of venereal diseases and their ratio to all other diseases. Mr. Kneeland's report is now in progress of preparation and will be published within the next two months.

Abraham Flexner Enlisted.
At the same time the bureau was fortunate in securing the services of Abraham Flexner, whose reports on the medical schools in this country and in Europe are so well known, to study the social evil and the various methods of dealing with it in the leading cities of Europe. Mr. Flexner spent the greater part of a year abroad, making a searching and exhaustive inquiry into the subject, and is now working on his report, which will be ready for publication this winter.

These studies are to be followed by others in those cities in the United States where different conditions exist or where special methods of dealing with the social evil have been introduced, the object being to become familiar with all phases of the subject and all methods of handling it which have been tried in this country and in Europe.

Based upon all of these studies, which will probably be published by December of this year, it is the hope of the bureau that there may be devised a practical plan for dealing with the social evil in New York city—a plan which public opinion can be brought to support.

In conclusion, it cannot be too strongly emphasized that the spirit which dominates the work of the bureau is not sensational or sentimental or hysterical; that it is not a spirit of criticism of public officials, but that it is essentially a spirit of constructive suggestion and of deep scientific as well as humane interest in a great world problem.

JOHN D. ROCKEFELLER, JR.,
For the Bureau of Social Hygiene, P. O. Box 579, New York City.

SUFFRAGISTS PLAN TABLEAUX

Women Will Put Scenes on Treasury Steps at Capital.

The latest activity planned by suffragists in connection with the inauguration is to give tableaux on the treasury steps. While the parade of thousands of women who are to take part in the great equal suffrage demonstration March 3 is passing through Pennsylvania avenue other women are to give the tableaux.

Historic scenes will be presented. Plans are already completed for both events. Mrs. Glenna S. Tinnin and Miss Hazel Mackaye are in charge of the tableaux.

Where He Drew the Line.

M. de Sainte-Beuve, the popular French writer, once fought a duel. When the principals took their positions it was raining hard. Sainte-Beuve had his pistol in one hand; with his other hand he held up his umbrella. The seconds protested.

"I have no objection whatever to being killed," said he, "but as to being wet—no, no!"

HIGH CLASS PRINTING

The Brainerd Dispatch is equipped for printing Catalogues, Mining Prospectuses, Townsite Prospectuses, Townsite Booklets, Town Advertising Booklets, Maps, Special Blanks, or any other kind of printing required by mining or business interests.

DISPATCH BUILDING, South 6th St., BRAINERD

COURTESY.

Courtesy is as much a duty as honesty. We have no more right to spoil a neighbor's life with the thorns of sharp speech and rough manner than we have to take the money out of his pocket. Besides, courtesy is a paying investment.
